I have similar comments on chlorpyrifos. I've marked up page 57 of the attached.

Thank you all for getting back to me. Seems like April 19th should give everybody time to look at them.

Hey Steve and Dana,

Would you be able to review the projection descriptions (part of Biological Opinions) from FWS for your respective chemicals over the next week?

I could look at diazinon tomorrow. But Steve and Dana will have to look at malathion and chlorpyrifos—I am not familiar with those cases.

Subject: RE: ESA Team Lead Meeting

All,

Attached are the project descriptions for chlorpyrifos, malathion, and diazinon from FWS. After taking a quick look through them, it looks like mostly a summary of the product labels (under Description of Proposed Action) with placeholders for a summary of our NLAA/LAA calls (under Concurrence), Consultation History, and any proposed mitigation (under Conservation Measures). Nothing to share from NMFS so far. We discussed PRD reviewing these documents last week during Team Lead meeting.

Tracy & Khue – Waiting to hear back from FWS regarding when they would like comments back. Would you have time over next week or so to review?

Thanks,

Phil
